AUTOMATIC FISH SLIDE PROCESSING SYSTEM

F901
New Upgrade

— **Fast FISH Leader**
Convenient · Efficient · Safe

■ SPECIFICATION

Product Name	Automatic FISH Slide Processing System	Model	YZY-FISH-F901
Power Supply	220V	Input Power	550W
Slide Capacity	24	Processing Time	3h
Monitor	10 inch LCD color touch screen	Consumables	Pretreatment kit
Dimension(L/W/H)	272mm *567mm*290mm	Weight	8kg

■ PRODUCT FEATURES

—◆ Automation

Automatic sample pretreatment and cleaning steps

1

—◆ HIGH THROUGHPUT

Up to 24 samples can be pretreated and cleaned simultaneously

2

—◆ EXCELLENT PERFORMANCE

High temperature control precision, small temperature fluctuation, fast rising and cooling speed, magnetic stirring technology, high background contrast after sample processing

3

—◆ FLEXIBLE OPERATION

Users can design the experimental process and experimental steps by themselves, support a variety of reagents, up to 12 reagents input, convenient maintenance, fault judgment function to make the equipment safer operation

4

—◆ SMALL & PORTABLE

Compact , high equipment integration, saving space

5

■ FISH INSTRUMENT SERIES

Model	Name
YZY-FISH-F10	Fluorescence In Situ Hybridizer
YZY-FISH-F900	Automatic FISH Slide Processing System
YZY-FISH-F901	Automatic FISH Slide Processing System

It can be used with ZY- FISH- F10 instrument
